

Appl. No. 10/602269  
Amdt. dated August 18, 2005  
Reply to Office Action of June 28, 2005

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (currently amended) An illuminated glove comprising in combination, a flexible enclosure for surrounding all or portions of a human hand, said enclosure having an elongated lens formed from a strip of a thermoplastic translucent polymer lens in the form of a light transmitting material and a light source positioned thereon for directing light through said lens and illuminating said lens along its length, a battery source and a switch for selectively activating said light source on said enclosure, said lens being non-reflective and illuminated along its length by said light source.
2. (currently amended) The glove of claim 1 wherein said light source is contiguous with said elongated lens light transmitting material.
3. (currently amended) The glove of claim 1 wherein said light source is embedded in said elongated lens light conducting material.
- 4-11. (canceled)
12. (original) The glove of claim 1 wherein said switch is operative to energize said light source in one of two modes of (a) blinking or (b) continuous, and to de-energize said light source.
13. (original) The glove of claim 1 wherein said switch includes contacts to open and close the switch and wherein the contacts are disposed on said enclosure for selective contact by an individual wearing the glove.
14. (original) The glove of claim 13 wherein said switch is operative to energize said light source in one of two modes of (a) blinking or (b) continuous, and to de-energize said light source.
15. (original) The glove of claim 13 wherein said glove includes sleeves for the index finger and thumb of the user and wherein said contacts are on the thumb sleeve and the index finger sleeve of the glove.
